NOTES:

This information applies to public school students only, including those in Charter or "New" schools. Parochial and private school students are not included. See EXPLANATIONS for details.

The ranges "percent advanced" and "percent proficient" as reported by the Baltimore City school system have been combined to report at the CSA level

+ Base data for comparison

Total is not the sum of the columns, as one census tract, the jail, is removed from the analysis at the CSA level, yet included in the overall total.

See the EXPLANATIONS after this table for calculation considerations and definitions of these *Vital Signs*

* Special explanations are needed as a result of a change in the indicator or correction. See the EXPLANATIONS section for details.

NOTES

This information applies to public school students only, including those in Charter or "New" schools. Parochial and private school students are not included. See EXPLANATIONS for details.

The ranges "percent advanced" and "percent proficient" as reported by the Baltimore City school system have been combined to report at the CSA level

+base data for comparison

Total is not the sum of the columns, as one census tract, the jail, is removed from the analysis at the CSA level, yet included in the overall total.

See the EXPLANATIONS after this table for calculation considerations and definitions of these *Vital Signs*

* Special explanations are needed as a result of a change in the indicator or correction. See the EXPLANATIONS section for details.

NOTES:

This information applies to public school students only, including those in Charter or "New" schools. Parochial and private school students are not included. See EXPLANATIONS for details.

The ranges "percent advanced" and "percent proficient" as reported by the Baltimore City school system have been combined to report at the CSA level

+ Base data for comparison

Total is not the sum of the columns, as one census tract, the jail, is removed from the analysis at the CSA level, yet included in the overall total.

See the EXPLANATIONS after this table for calculation considerations and definitions of these *Vital Signs*

* Special explanations are needed as a result of a change in the indicator or correction. See the EXPLANATIONS section for details.

NOTES:

This information applies to public school students only, including those in Charter or "New" schools. Parochial and private school students are not included. See EXPLANATIONS for details.

The ranges "percent advanced" and "percent proficient" as reported by the Baltimore City school system have been combined to report at the CSA level

+ Base data for comparison

Total is not the sum of the columns, as one census tract, the jail, is removed from the analysis at the CSA level, yet included in the overall total.

See the EXPLANATIONS after this table for calculation considerations and definitions of these *Vital Signs*

* Special explanations are needed as a result of a change in the indicator or correction. See the EXPLANATIONS section for details.

NOTES:

This information applies to public school students only, including those in Charter or "New" schools. Parochial and private school students are not included. See EXPLANATIONS for details.

The ranges "percent advanced" and "percent proficient" as reported by the Baltimore City school system have been combined to report at the CSA level

+ Base data for comparison

Total is not the sum of the columns, as one census tract, the jail, is removed from the analysis at the CSA level, yet included in the overall total.

See the EXPLANATIONS after this table for calculation considerations and definitions of these *Vital Signs*

* Special explanations are needed as a result of a change in the indicator or correction. See the EXPLANATIONS section for details.

NOTES:

The High School Assessments are required for students entering the 9th grade starting in 2005.

This information applies to public school students only, including those in Charter or "New" schools. Parochial and private school students are not included. See EXPLANATIONS for details.

Total is not the sum of the columns, as one census tract, the jail, is removed from the analysis at the CSA level, yet included in the overall total.

See the EXPLANATIONS after this table for calculation considerations and definitions of these *Vital Signs*

NOTES

This information applies to public school students only, including those in Charter or "New" schools. Parochial and private school students are not included. See EXPLANATIONS for details.

Total is not the sum of the columns, as one census tract, the jail, is removed from the analysis at the CSA level, yet included in the overall total.

See the EXPLANATIONS after this table for calculation considerations and definitions of these *vital Signs*.

* Special explanations are needed as a result of a change in the indicator or correction. See the EXPLANATIONS section for detail.
