NOTE  
 Total is not the sum of the columns, as one census tract, the jail, is removed from the analysis at the CSA level, yet included in the overall total.  
 See the EXPLANATIONS after this table for calculation considerations and definitions of these Vital Signs  
 \* Special explanations are needed as a result of a change in the indicator or correction. See the EXPLANATIONS that follow this table for details.

### Children and Family Health, Safety and Well-being

VISION	Neighborhoods that are home to stable families with resources needed to nurture children, including access to high-quality health care and jobs that pay family supporting wages.														
Results	Children safe in their homes, families, and neighborhoods										Stable and economically independent families				
We will know we are making progress by measuring:	Safe Neighborhoods										Income and Poverty				
	Percent of all juvenile arrests where juvenile has at least one prior offense				Crime rate - Number of reported part 1 criminal offenses per 1,000 people				Violent crime rate - Number of part 1 criminal offenses that are classified as violent per 1,000 people				Median Household Income	* Percent of married couple families with less than 6 children under age 18 earning below the Maryland Self Sufficiency wage standard	* Percent of "other" families with less than 6 children under age 18 earning below the Maryland Self Sufficiency wage standard

### Children and Family Health, Safety and Well-being

Results	Children safe in their homes, families, and neighborhoods										Stable and economically independent families				
We will know we are making progress by measuring:	Safe Neighborhoods										Income and Poverty				
	Percent of all juvenile arrests where juvenile has at least one prior offense				Crime rate - Number of reported part 1 criminal offenses per 1,000 people				Violent crime rate - Number of part 1 criminal offenses that are classified as violent per 1,000 people				Median Household Income	* Percent of married couple families with less than 6 children under age 18 earning below the Maryland Self Sufficiency wage standard	* Percent of "other" families with less than 6 children under age 18 earning below the Maryland Self Sufficiency wage standard

NOTE  
 Total is not the sum of the columns, as one census tract, the jail, is removed from the analysis at the CSA level, yet included in the overall total.  
 See the EXPLANATIONS after this table for calculation considerations and definitions of these Vital Signs  
 \* Special explanations are needed as a result of a change in the indicator or correction. See the EXPLANATIONS that follow this table for details.  
 \*\* American Community Survey has a slight change in calculation from decennial census figures. For more information, please visit <http://www.census.gov/acs/www/index.html>.

Children and Family Health, Safety and Well-being

VISION		Neighborhoods that are home to stable families with resources needed to nurture children, including access to high-quality health care and jobs that pay family supporting wages.																							
Results		Stable and economically independent families				Babies born healthy								Children Safe in their Homes, Families, and Neighborhoods											
We will know we are making progress by measuring:		Income and Poverty				Maternal and Child Health								Lead Poisoning											
		* Teen Birth Rate - Number of teens ages 15-19 who gave birth per 1,000 teens				Percent of births delivered at term (37-42 weeks)				Percent of babies born with satisfactory birth-weight				Percent of births where the mother received early prenatal care (first trimester)				* Number of children ages 0-6 years old tested for the presence of lead in their blood				* Percent of children ages 0-6 years old with elevated blood lead levels out of all children ages 0-6 who were tested for presence of lead

Children and Family Health, Safety and Well-being

Results  We will know we are making progress by measuring:  	Stable and economically independent families				Babies born healthy												Children Safe in their Homes, Families, and Neighborhoods					
	Income and Poverty				Maternal and Child Health												Lead Poisoning					
	* Teen Birth Rate - Number of teens ages 15-19 who gave birth per 1,000 teens				Percent of births delivered at term (37-42 weeks)				Percent of babies born with satisfactory birth-weight				Percent of births where the mother received early prenatal care (first trimester)				* Number of children ages 0-6 years old tested for the presence of lead in their blood			* Percent of children ages 0-6 years old with elevated blood lead levels out of all children ages 0-6 who were tested for presence of lead

NOTES  
 Total is not the sum of the columns, as one census tract, the jail, is removed from the analysis at the CSA level, yet included in the overall total.  
 See the EXPLANATIONS after this table for calculation considerations and definitions of these Vital Signs  
 \* Special explanations are needed as a result of a change in the indicator or correction. See the EXPLANATIONS that follow this table for details.

**Children and Family Health, Safety and Well-being**

<b>VISION</b>	<b>Neighborhoods that are home to stable families with the resources needed to nurture children, including access to high-quality health care and jobs that pay family supporting wages.</b>															
<b>Results</b>	<b>Healthy Families, Children, and Individuals with Health Insurance, and Access to Preventive Care</b>															
<b>We will know we are making progress by measuring:</b>	<b>Preventive Health Care</b>								<b>Other Health Issues</b>				<b>Drug Addiction</b>			
	* Percent of people with vaccine-preventable diseases like hepatitis A and B, measles, flu, meningitis, etc. per 10,000 people				Percent of emergency room visits that are not emergency-related				Number of children ages birth-17 years old hospitalized for asthma				Number of drug treatment clients

## Children and Family Health, Safety and Well-being

Results	Healthy Families, Children, and Individuals with Health Insurance, and Access to Preventive Care															
We will know we are making progress by measuring:	Prevention								Other Health Issues				Drug Addiction			
	* Percent of people with vaccine-preventable diseases like hepatitis A and B, measles, flu, meningitis, etc. per 10,000 people				Percent of emergency room visits that are not emergency-related				Number of children ages birth-17 years old hospitalized for asthma				Number of drug treatment clients

**NOTES:**

n/a for fewer than 6 cases, for data indicators provided by the Maryland Department of Health and Mental Hygiene

Some Zip codes span across the Baltimore City/County boundaries. However, for all indicators except drug treatment, the indicators reflect the situation in Baltimore City only. Drug Treatment includes people residing in the entire Zip code. See the EXPLANATIONS for more details.

Some Zip codes excluded, they were PO Box codes that did not contain significant data

See the EXPLANATIONS after this table for

\* Special explanations are needed as a result of a change in the indicator or correction. See the EXPLANATIONS section for details.
