BNIA-JFI Staff who contributed to Vital Signs 12:

Seema Iyer, PhD Associate Director Jacob France Institute

David Epstein, Research Associate

Cheryl Knott, GIS Analyst

Nancy Jones, Data Manager

Jahangir Akbar, Research Assistant

Sachini Bandara, Student Assistant

Kathryn Montgomery, Designer

David Carpenter, Web Developer

Census Demographics

Most indicators throughout *Vital Signs* are created by acquiring and analyzing data collected from governmental agencies for some public administration purpose, such as 311 calls or housing inspections. However, data from the United States Bureau of the Census remains the best source for demographic and socioeconomic indicators for neighborhoods. The Census Bureau collects a wide variety of information through administration of both the decennial Census and the annual American Community Survey (ACS).

Prior to 2010, the Census administered both a long- and short-form decennial Census which was used to collect detailed information on residents of the United States. Starting with the 2010 Census, only a short-form Census was administered to all households and the long-form was replaced with the ACS. The ACS is an ongoing, continuous survey used to collect data once supplied by the Census long-form. The main benefit of the ACS is access to small-area data for the City of Baltimore on an annual basis; however, community-level information is averaged over 5-years of data collection making interpretation of the data more challenging.

In *Vital Signs 12*, population counts, race/ethnicity, age and sex indicators continue to use the 2010 Census¹ since these are based on the full enumeration of the City's population. Even though ACS data is released annually, year-over-year comparisons cannot be directly made since four of the five years in each time period overlap and any changes during this time period may not reflect change that occurred in that one single year². Indicators in *Vital Signs 12* calculated using the latest 5-year average from the 2008-2012 ACS data will be noted.

Census data are frequently used throughout *Vital Signs* as denominators for normalizing many other indicators and rates. The socioeconomic and demographic indicators are grouped into the following categories: *population, race/ethnicity, age, households, and income and poverty*.

Population

The Community Statistical Areas (CSA) that are used to report *Vital Signs* data are aggregations of census tracts that represent neighborhoods. Since the CSAs vary by population size, many indicators are normalized by population so that rates and percentages can be compared uniformly. The **largest** CSAs in terms of population size are Cedonia/Frankford (23,557), Greater Rosemont (19,259), and Southwest Baltimore (17,885). The **smallest** CSAs are Dickeyville/Franklintown (4,101), Poppleton/The Terraces/Hollins Market (5,086), and Mt. Washington/Coldspring (5,168). These also are the **highest** and **lowest** CSAs with respect to total male population.

¹ For more details on how neighborhoods changed between the 2000 and 2010 Censuses, see Vital Signs 10, Census Demographics chapter, www.bniajfi.org

² For more information on data interpretation of the American Community Survey visit www.census.gov.

Total female population is **highest** in Cedonia/Frankford, Greater Rosemont and Belair-Edison and **lowest** in Dickeyville/Franklintown, Poppleton/The Terraces/Hollins Market and Washington Village.

Race (Non-Hispanic)

The Census asks two separate questions for respondents to identify race (white, black, Asian, 2 or more, or other) and ethnicity (Hispanic or Non-Hispanic). *Vital Signs 12* reports race for non-Hispanic persons only, to more clearly understand the impact of the growing Hispanic population by CSA (see below). In 2010, the City was 63.8% non-Hispanic black and 28.3% non-Hispanic white. The CSAs with the **highest percentage non-Hispanic black** were Edmondson Village (96.7%) and Clifton-Berea (96.3%). The CSAs with the **highest percentage non-Hispanic white** were South Baltimore (90.3%) and Canton (86.0%). The CSAs with the **highest percentage non-Hispanic Asian** were Downtown/Seton Hill (15.9%) and Greater Charles Village/Barclay (13.3%).

Ethnicity and Diversity

Although the City as a whole is only 4.2% ethnically Hispanic, some Baltimore neighborhoods have high percentages of Hispanic residents particularly in the southeast part of the City. The CSAs with the **highest percentage Hispanic** population are Orangeville/East Highlandtown (30.3%), Patterson Park North & East (21.1%), and Southeastern (19.9%). These CSAs also correspond to the areas with the **greatest racial diversity**, which is the chance of choosing two people at random in a neighborhood and each being a different race or ethnicity.

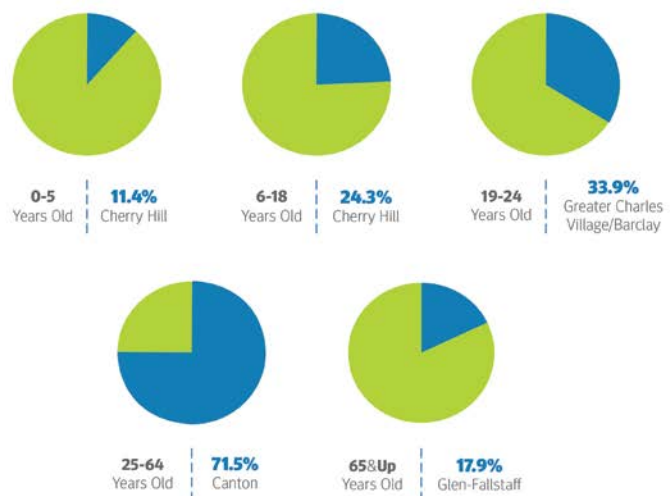

Age

Population age groups reflect “life cycle” ranges from 0-5, school-age, college-age, working-age and seniors. The CSAs with the **highest**

Source: 2010 US Census

• CSAs With The Highest Percentage Population By Age •

percentage population 0 to 5 years old were Cherry Hill (11.4%) and Madison/East End (10.4%). The CSAs with the **highest percentage population 6 to 18 years** old were also Cherry Hill (24.3%) and Madison/East End (22.3%). The CSAs with the **highest percentage population 19 to 24 years** old were Greater Charles Village/Barclay³ (33.9%) and North Baltimore/Guilford/Homeland⁴ (28.2%). The CSAs with the **highest percentage population 25 to 64 years** old were Canton (71.5%) and South Baltimore (70.9%). The CSAs with the **highest percentage population 65 years** old or older were Glen-Fallstaff (17.9%) and Morrell Park/Violetville (17.8%).

Households

Similar to population size, the CSAs vary by **total number of households**, and some indicators are normalized by households so that rates and percentages can be compared uniformly. CSAs in terms of number of households are not the same as the ones for population size, since households can range from single-person to large families. The **largest** CSAs in terms of number of households are Cedonia/Frankford (9,348), Midtown (9,078) and Medfield/Hampden/Woodberry/Remington (8,289). The **smallest** CSAs are Dickeyville/Franklinton (1,877), Poppleton/The Terraces/Hollins Market (2,181) and Washington Village/Pigtown (2,273).

The City's **average household size** is 2.4 persons with CSAs ranging from a **high** of 3.3 persons per household in Madison/East End to a **low** of 1.6 in Downtown. These same CSAs correspond to the highest and lowest percent of **households with children under 18 years old**, 51.0% in Madison/East End and 8.6% in Downtown.

- Of the households with children under 18, 54.9% of Baltimore City's households were identified as being female-headed. The CSAs with the highest percentage of **female-headed households with children under 18** were with Oldtown/Middle East (81.4%) and Cherry Hill (80.7%).

Income and Poverty

Using the 2008-2012 American Community Survey, the **median household income** in Baltimore was \$40,803, with a wide range by CSA with the **greatest** median household income in Greater Roland Park/Poplar Hill (\$107,668) and the **lowest** in Oldtown/Middle East (\$13,478).

- Nearly 35% of the City's households **earn less than \$25,000** annually. The CSAs with the **greatest** percentage of households earning less than \$25,000 annually include Upton/Druid Heights (66.3%), Oldtown/Middle East (63.9%), and Poppleton/The Terraces/Hollins Market (62.9%).

³ This CSA includes the Johns Hopkins University Homewood Campus

⁴ This CSA includes the campuses of Loyola University of Maryland and Notre Dame University

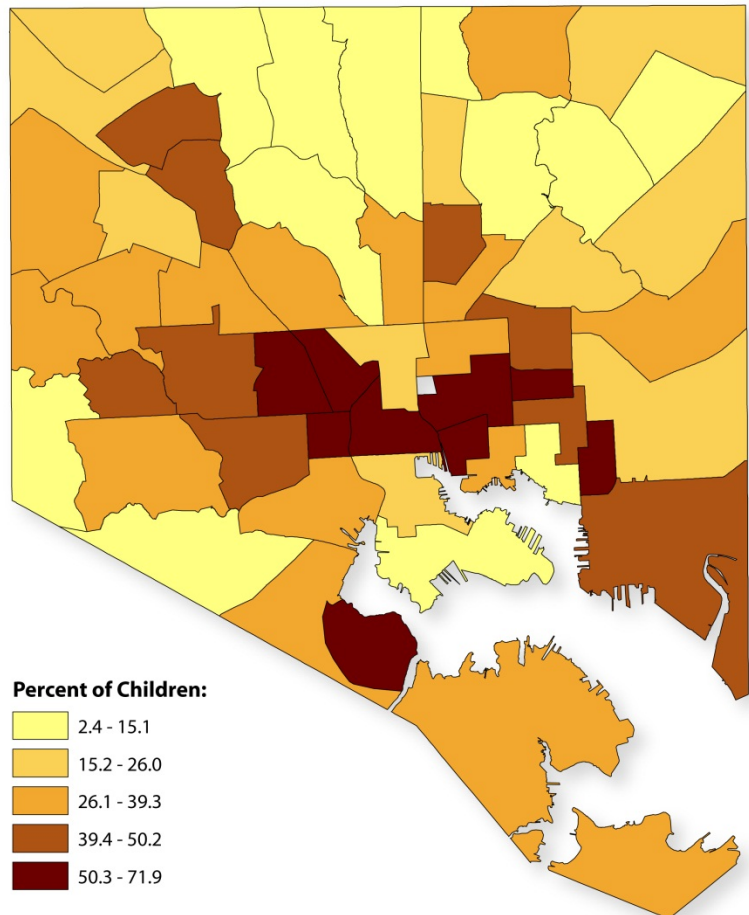

- Slightly more than 23% of households **earn more than \$75,000** annually. The CSAs with the **greatest** percentage of households earning more than \$75,000 annually include Greater Roland Park/Poplar Hill (63.5%), Inner Harbor/Federal Hill (55.5%), Canton (55.1%), and North Baltimore/Guilford/Homeland (53.7%).

Vital Signs 12 reports the percentage of households and the percentage of children that are living below the poverty line. The poverty line is determined by the United States Department of Health and Human Services and varies based upon the composition of the family (number of adults and number of children).

- For 2008-2012, 18.8% of the **households in Baltimore City** were living below the **poverty** line. The CSAs with the **greatest** percentage of households in poverty included Upton/Druid Heights (49.5%), Oldtown/Middle East (49.2%), and Poppleton/The Terraces/ Hollins Market (45.9%).

- For 2008-2012, 33.4% of **children in Baltimore City** lived below the **poverty** line. The CSAs with the **greatest** percentage of children living in poverty included Poppleton/The Terraces/ Hollins Market (71.9%), Harbor East/Little Italy (71.8%), Oldtown/Middle East (70.9%), Downtown/ Seton Hill (58.6%), and Madison/East End (56.4%).

Percent of Children Living in Poverty, 2008-2012

Census Demographics

Indicator Definitions and Rankings

For each indicator reported in *Vital Signs 12*, we provide the data source, the years for which it is reported, and the five CSAs with the highest and lowest values for the indicator; these may not correspond to positive or negative trends¹.

Population

Total Population

Measure of persons living in an area.

Definition: The total number of persons of all ages that live within an area. This indicator is frequently used to normalize data to allow for comparison across areas.

Source: U.S. Census Bureau, 2010

Five Highest:

1. Cedonia/Frankford
2. Greater Rosemont
3. Southwest Baltimore
4. North Baltimore/Guilford/Homeland
5. Belair-Edison

Five Lowest:

1. Dickeyville/Franklinton
2. Poppleton/The Terraces/Hollins Market
3. Mt. Washington/Coldspring
4. Harbor East/Little Italy
5. Washington Village

Total Male Population

Measure of males living in an area.

Definition: The total number of men of all ages of all ages that live within an area.

Source: U.S. Census Bureau, 2010

Five Highest:

1. Cedonia/Frankford
2. Greater Rosemont
3. Southwest Baltimore
4. Greater Charles Village/Barclay
5. Medfield/Hampden/Woodberry

Five Lowest:

1. Dickeyville/Franklinton
2. Mt. Washington/Coldspring
3. Poppleton/The Terraces/Hollins Market
4. Harbor East/Little Italy
5. Washington Village

¹ The source for indicators in the categories of Population, Diversity, Age, and Households is the 2010 decennial census

Total Female Population

Measure of females living in an area.

Definition: The total number of women of all ages that live within an area.

Source: U.S. Census Bureau, 2010

Five Highest:

1. Cedonia/Frankford
2. Greater Rosemont
3. Belair-Edison
4. North Baltimore/Guilford/Homeland
5. Southwest Baltimore

Five Lowest:

1. Dickeyville/Franklintown
2. Poppleton/The Terraces/Hollins Market
3. Washington Village
4. Harbor East/Little Italy
5. Mt. Washington/Coldspring

Non-Hispanic Race/Ethnicity/Diversity

Percent of Residents - Black/African American

Measure of non-Hispanic African American persons living in an area.

Definition: The total number of persons that identify themselves as being racially Black or African American (and ethnically non-Hispanic) out of the total number of persons living in an area. “Black or African American” refers to a person having origins in any of the Black racial groups of Africa. It includes people who indicated their race as “Black”.

Source: U.S. Census Bureau, 2010

Five Highest:

1. Edmondson Village
2. Sandtown-Winchester/Harlem Park
3. Greater Rosemont
4. Clifton-Berea
5. Greater Mondawmin

Five Lowest:

1. South Baltimore
2. Canton
3. Fells Point
4. Greater Roland Park/Poplar Hill
5. Highlandtown

Percent of Residents - Non-Hispanic White

Measure of non-Hispanic White persons living in an area.

Definition: The total number of persons that identify themselves as being racially White (and ethnically non-Hispanic) out of the total number of persons living in an area. “White” refers to a person having origins in any of the original peoples of Europe, the Middle East, or North Africa. It includes people who indicated their race(s) as “White”.

Source: U.S. Census Bureau, 2010

Five Highest:

1. South Baltimore
2. Canton
3. Inner Harbor/Federal Hill
4. Greater Roland Park/Poplar Hill
5. Medfield/Hampden/Woodberry

Five Lowest:

1. Greater Rosemont
2. Edmondson Village
3. Clifton-Berea
4. Sandtown-Winchester/Harlem Park
5. Greater Mondawmin

Percent of Residents - Non-Hispanic Asian

Measure of Asian persons living in an area.

Definition: The total number of persons that identify themselves as being Asian (and non-Hispanic) out of the total number of persons living in an area. “Asian” refers to a person having origins in any of the original peoples of the Far East, Southeast Asia, or the Indian subcontinent, including, for example, Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand, and Vietnam.

Source: *U.S. Census Bureau, 2010*

Five Highest:

1. Downtown/Seton Hill
2. Greater Charles Village/Barclay
3. Greater Roland Park/Poplar Hill
4. Midtown
5. North Baltimore/Guilford/Homeland

Five Lowest:

1. Edmondson Village
2. Forest Park/Walbrook
3. Greater Rosemont
4. Greater Mondawmin
5. Southern Park Heights

Percent of Residents - Two or More Races

Measure of persons reporting being of two or more races living in an area.

Definition: The total number of persons that identify themselves as being of two or more races (and non-Hispanic) out of the total number of persons living in an area.

Source: *U.S. Census Bureau, 2010*

Five Highest:

1. Brooklyn/Curtis Bay/Hawkins Point
2. Midtown
3. Downtown/Seton Hill
4. Greater Charles Village/Barclay
5. Washington Village

Five Lowest:

1. Dorchester/Ashburton
2. Sandtown-Winchester/Harlem Park
3. Oldtown/Middle East
4. Dickeyville/Franklintown
5. Greenmount East

Percent of Residents - All Other Races

Measure of persons reporting being of a race other than African American, White, Asian, or Two or More races living in an area.

Definition: The total number of persons that identify themselves as being of either American Indian, Alaskan Native, Native Hawaiian or Other Pacific Islander, or some other race (non-Hispanic) out of the total number of persons living in an area.

Source: U.S. Census Bureau, 2010

Five Highest:

1. Southeastern
2. Patterson Park North & East
3. Highlandtown
4. Orangeville/East Highlandtown
5. Claremont/Armistead

Five Lowest:

1. Sandtown-Winchester/Harlem Park
2. Loch Raven
3. Greater Roland Park/Poplar Hill
4. Clifton-Berea
5. Greater Rosemont

Racial Diversity Index

Measures the degree of racial diversity within an area.

Definition: The percent chance that two people picked at random within an area will be of a different race/ethnicity. This number does not reflect which race/ethnicity is predominant within an area. The higher the value, the more racially and ethnically diverse an area.

Source: U.S. Census Bureau, 2010

Percent of Residents - Hispanic

Measure of the number of Hispanic persons in an area.

Definition: The total number of persons that identify their ethnicity as being Hispanic or Latino out of the total number of persons living in an area. Hispanic origin can be viewed as the heritage, nationality group, lineage, or country of birth of the person or the person's parents or ancestors before their arrival in the United States. People who identify their origin as Hispanic, Latino, or Spanish may be any race.

Source: U.S. Census Bureau, 2010

Five Highest:

1. Orangeville/East Highlandtown
2. Patterson Park North & East
3. Southeastern
4. Highlandtown
5. Fells Point

Five Lowest:

1. Sandtown-Winchester/Harlem Park
2. Edmondson Village
3. Greater Mondawmin
4. Greenmount East
5. Southern Park Heights

Five Highest:

1. Orangeville/East Highlandtown
2. Patterson Park North & East
3. Southeastern
4. Downtown/Seton Hill
5. Greater Charles Village/Barclay

Five Lowest:

1. Sandtown-Winchester/Harlem Park
2. Edmondson Village
3. Greater Rosemont
4. Clifton-Berea
5. Greater Mondawmin

Percent of Population 0 to 5 Years Old

Measure of very young persons (before school age) in an area.

Definition: The percent of persons 5 years or under out of all persons living in an area.

Source: U.S. Census Bureau, 2010

Five Highest:

1. Cherry Hill
2. Madison/East End
3. Brooklyn/Curtis Bay/Hawkins Point
4. Upton/Druid Heights
5. Cross-Country/Cheswolde

Five Lowest:

1. Midtown
2. Greater Charles Village/Barclay
3. Downtown/Seton Hill
4. Canton
5. Greater Roland Park/Poplar Hill

Percent of Population 19 to 24 Years Old

Measure of persons aged 19 to 24 years old (approximately college age) in an area.

Definition: The percent of persons aged 19 to 24 years old out of all persons living in an area.

Source: U.S. Census Bureau, 2010

Five Highest:

1. Greater Charles Village/Barclay
2. North Baltimore/Guilford/Homeland
3. Northwood
4. Midtown
5. Downtown/Seton Hill

Five Lowest:

1. Mt. Washington/Coldspring
2. Greater Roland Park/Poplar Hill
3. Hamilton
4. Morrell Park/Violetville
5. Lauraville

Percent of Population 6 to 18 Years Old

Measure of persons aged 6 to 18 years old (school aged) in an area.

Definition: The percent of persons aged 6 to 18 years old out of all persons living in an area.

Source: U.S. Census Bureau, 2010

Five Highest:

1. Cherry Hill
2. Madison/East End
3. Westport/Mt. Winans/Lakeland
4. Belair-Edison
5. Upton/Druid Heights

Five Lowest:

1. Canton
2. Midtown
3. Downtown/Seton Hill
4. Inner Harbor/Federal Hill
5. South Baltimore

Percent of Population 25 to 64 Years Old

Measure of persons aged 25 to 64 (approximately working age) in an area.

Definition: The percent of persons aged 25 to 64 years old out of all persons living in an area

Source: U.S. Census Bureau, 2010

Five Highest:

1. Canton
2. Fells Point
3. South Baltimore
4. Downtown/Seton Hill
5. Inner Harbor/Federal Hill

Five Lowest:

1. Cross-Country/Cheswolde
2. Cherry Hill
3. North Baltimore/Guilford/Homeland
4. Northwood
5. Madison/East End

Percent of Population 65 Years Old and Above

Measure of seniors living in an area.

Definition: The total number of persons 65 years old and above out of all persons living in an area.

Source: U.S. Census Bureau, 2010

Five Highest:

1. Cross-Country/Cheswolde
2. Howard Park/West Arlington
3. Greater Roland Park/Poplar Hill
4. Glen-Falstaff
5. Morrell Park/Violetville

Five Lowest:

1. Downtown/Seton Hill
2. Patterson Park North & East
3. Harbor East/Little Italy
4. Madison/East End
5. Brooklyn/Curtis Bay/Hawkins Point

Households

Total Number of Households

Measure of households in an area.

Definition: A household consists of all the people occupying a housing unit. A household includes related and unrelated persons, if any, such as lodgers, foster children, wards, or employees who share the housing unit. A person living alone in a housing unit, or a group of unrelated people sharing a housing unit such as partners or roomers, is also counted as a household. The count of households excludes group quarters.

Source: U.S. Census Bureau, 2010

Five Highest:

1. Cedonia/Frankford
2. Midtown
3. Medfield/Hampden/Woodberry
4. Greater Charles Village/Barclay
5. Harford/Echodale

Five Lowest:

1. Dickeyville/Franklintown
2. Poppleton/The Terraces/Hollins Market
3. Washington Village
4. Madison/East End
5. Harbor East/Little Italy

Average Household Size

Measures the average size of the households within an area.

Definition: The median value of number of persons living within a household. The average size of a household is obtained by dividing the number of persons in households by the number of households (or householders).

Source: U.S. Census Bureau, 2010

Five Highest:

1. Madison/East End
2. Midway/Coldstream
3. Belair-Edison
- Three CSAs tied for 4th and 5th

Five Lowest:

1. Downtown/Seton Hill
2. Midtown
3. Canton
4. Mt. Washington/Coldspring
5. Inner Harbor/Federal Hill

Percent of Households with Children Under the Age of 18

Measure of households with children.

Definition: The percentage of households with children living in the household that are under the age of 18 out of all households.

Source: *U.S. Census Bureau, 2010*

Five Highest:

1. Madison/East End
2. Cherry Hill
3. Westport/Mt. Winans/Lakeland
4. Belair-Edison
5. Brooklyn/Curtis Bay/Hawkins Point

Five Lowest:

1. Midtown
2. Downtown/Seton Hill
3. Canton
4. Greater Charles Village/Barclay
5. Fells Point

Percent of Female-Headed Households with Children under 18

Measure of households with children headed by females in an area.

Definition: The percentage of female-headed households with children under 18 out of all households with children under 18 in an area.

Source: *U.S. Census Bureau, 2010*

Five Highest:

1. Oldtown/Middle East
2. Cherry Hill
3. Upton/Druid Heights
4. Poppleton/The Terraces/Hollins Market
5. Harbor East/Little Italy

Five Lowest:

1. Greater Roland Park/Poplar Hill
2. North Baltimore/Guilford/Homeland
3. South Baltimore
4. Cross-Country/Cheswolde
5. Canton

Income and Poverty

Median Household Income

Measures the relative wealth of households in an area.

Definition: The median household income is the middle value of the incomes earned by households within an area for the prior year. The median value is used as opposed to the average so that both extremely high and extremely low prices do not distort the total amount of income earned by households in an area.

Source: *American Community Survey 2008-2012*

Five Highest:

1. Greater Roland Park/Poplar Hill
2. Mt. Washington/Coldspring
3. South Baltimore
4. Canton
5. Inner Harbor/Federal Hill

Five Lowest:

1. Oldtown/Middle East
2. Upton/Druid Heights
3. Poppleton/The Terraces/Hollins Market
4. Greenmount East
5. Cherry Hill

Percent of Households Earning \$25,000 to \$40,000 a Year

Measures the concentration of households with earnings in the previous year between \$25,000 and \$39,999 in an area.

Definition: The percentage of households earning between \$25,000 and \$39,999 out of all households in an area.

Source: *American Community Survey, 2008-2012*

Five Highest:

1. Midway/Coldstream
2. Howard Park/West Arlington
3. Brooklyn/Curtis Bay/Hawkins Point
4. Greater Mondawmin
5. Edmondson Village

Five Lowest:

1. Inner Harbor/Federal Hill
2. Greater Roland Park/Poplar Hill
3. Mt. Washington/Coldspring
4. Canton
5. North Baltimore/Guilford/Homeland

Percent of Households Earning Less than \$25,000 a Year

Measures the concentration of households that earned less than \$25,000 in the previous year.

Definition: The percentage of households earning less than \$25,000 out of all households in an area.

Source: *American Community Survey, 2008-2012*

Five Highest:

1. Upton/Druid Heights
2. Oldtown/Middle East
3. Poppleton/The Terraces/Hollins Market
4. Greenmount East
5. Sandtown-Winchester/Harlem Park

Five Lowest:

1. Greater Roland Park/Poplar Hill
2. Canton
3. South Baltimore
4. Lauraville
5. Hamilton

Percent of Households Earning \$40,000 to \$60,000 a Year

Measures the concentration of households with earnings in the previous year between \$40,000 and \$59,999 in an area.

Definition: The percentage of households earning between \$40,000 and \$59,999 out of all households in an area.

Source: *American Community Survey, 2008-2012*

Five Highest:

1. Loch Raven
2. Beechfield/Ten Hills/West Hills
3. Medfield/Hampden/Woodberry

4. Poppleton/The Terraces/Hollins Market
5. Claremont/Armistead

Percent of Households Living Below the Poverty Line

Measures economic conditions in an area.

Definition: This indicator measures the percentage of households whose income fell below the poverty threshold out of all households in an area. Federal and state governments use such estimates to allocate funds to local communities. Local communities use these estimates to identify the number of individuals or families eligible for various programs.

Source: *American Community Survey, 2008-2012*

5. Cherry Hill

Percent of Children Living Below the Poverty Line

Measures economic conditions facing persons under the age of 18.

Definition: This indicator measures the percentage of persons under the age of 18 living in households where the total income fell below the poverty threshold out of all children in households in an area. Federal and state governments use such estimates to allocate funds to local communities. Local communities use these estimates to identify the number of individuals or families eligible for various programs.
