Baltimore Focus Initiative:
Using Data to Promote Community Development in Baltimore

**Create**
a new neighborhood center with local retail and services, including food retail

**Use new open spaces**
generated by building demolition to enhance developability of sites in new neighborhood center

**Develop**
multi-modal transportation connections to employment areas, especially downtown

**Promote**
mixed-use, mixed-income development in a new neighborhood center

**Develop**
urban agriculture on some vacant parcels/sites

**Use green infrastructure**
to improve stormwater management
